

“DURFEY BURST”: This maneuver is similar to the Butterfly except that the GL’s perform the moves simultaneously rather than in ‘follow the leader’ fashion. The command Durfey Burst, execute Now is given by the lead GL. All GL’s go to their respective curbs at a 45 degree angle. Once on the ‘curb’ Execute Now is repeated and GL’s arch back to the centerline and immediately go back out to the curb at a 45 degree angle. At Execute Now, all GL’s arch back to the centerline and reform in Deuce.
